[1] Best Internet Providers Of 2023

Candidate Sources (13) ▾

According to [Forbes](#), the best internet providers of 2023 are:

AT&T Internet: AT&T offers speeds up to 100 Mbps starting at \$55 per month and fiber speeds where available. They have a variety of plans and bundling options with TV and phone.

[Visit Website](#)

Verizon Fios: Verizon Fios offers competitive prices for the speeds they provide. Their plans start at \$24.99 per month for speeds of 300 Mbps and go up to 1 Gbps.

[Visit Website](#)

T-Mobile Home Internet: T-Mobile expanded to home internet using their existing 4G LTE and 5G networks. Their plans start at \$30 per month and come with unlimited data.

[Visit Website](#)

Cox Communications: Cox offers fast speeds at an affordable rate, with plans ranging from 100 Mbps to 1 Gbps. They also offer bundle options with TV and home security.

[Visit Website](#)

Xfinity: Xfinity provides wide coverage in the US, with plans starting at \$30 per month for speeds of 75 Mbps. They also offer TV, home phone, and home security packages.

[Visit Website](#)

CenturyLink: CenturyLink is one of the largest ISPs in the country, offering competitive rates and speeds. They offer both fiber and DSL connections, with plans starting at \$30 per month.

[Visit Website](#)

Astound Broadband: Astound Broadband offers affordable plans with speeds up to 1,200 Mbps. They are available in 10 states and Washington D.C.

[Visit Website](#)

Google Fiber: Google Fiber provides fast and reliable internet speeds with plans up to 5 Gbps. However, it is only available in 20 cities.

[Visit Website](#)

Spectrum: Spectrum offers reasonable rates for adequate download speeds. They also have bundle options with TV and phone services.

[Visit Website](#)

Windstream: Windstream offers fiber connections in certain areas outside of major cities. They have plans with speeds of either 500 Mbps or 1 Gbps.
