According to the information provided by [Colorado State University](#)^[1]'s [Department of Food Science and Human Nutrition](#)^[1], the [Fermentation Science and Technology](#)^[1] degree program is designed to provide students with a comprehensive understanding of food and beverage fermentation^[1] processes. This includes coursework in applied food fermentation^[1], brewing science, sensory analysis, and operations management. The program emphasizes hands-on learning experiences in state-of-the-art facilities, including an on-campus brewery and quality testing laboratories^[1].

The [Fermentation Science and Technology](#)^[1] program at [Colorado State University](#)^[1] also offers opportunities for experiential learning, such as internships within the food and fermentation science industry^[1]. These internships provide students with real-world experience in various areas of the fermentation industry, helping them explore potential career paths.

Additionally, the program incorporates research projects mentored by industry partners and offers independent study opportunities for students to work on research projects with faculty and staff. These experiences allow students to develop research skills, learn laboratory techniques, and collaborate with industry professionals and faculty members.

Starting in Fall 2024, the [Fermentation Science and Technology](#)^[1] major will transition to a new name, "Fermentation and Food Science"^[1], offering two concentrations to choose from^[1]: [Fermentation Science and Technology](#)^[1] or [Food Science](#)^[1].

For more specific information or to inquire about the program, it is recommended to contact the academic success coordinator^[1] or visit the [Department of Food Science and Human Nutrition](#)^[1]'s website.

Based on the information provided, it appears that the [Fermentation Science and Technology](#)^[1] program at [Colorado State University](#)^[1] offers a comprehensive education in the science and technology behind food and beverage fermentation^[1] processes, preparing students for careers in the food industry^[1] specializing in food fermentation^[1], product development, brewing, and production management.

Please note that this response is based solely on the information provided in the text, and it is always recommended to directly contact the institution or visit their official website for the most accurate and up-to-date information regarding their academic programs.

Follow Up Suggestions

Are there specific prerequisites or required courses for admission to the Fermentation Science and Technology program?

Can you provide more details on the hands-on learning experiences within the state-of-the-art facilities?

How long is the internship component of the program, and what kind of companies or organizations offer these opportunities?

What types of research projects are available for students to work on with industry partners?

query_intent: knowledge

Are there specific prerequisites or required courses for admission to the Fermentation Science and Technology program? 

The required prerequisites or courses for admission to the [Fermentation](#) Science and Technology program at [Southern Illinois University \(SIU\)](#) are not explicitly mentioned in the provided text from [SIU](#). Therefore, the information regarding specific prerequisites or required courses for admission to the program is not available.

To obtain accurate and up-to-date information about the admission requirements, it is recommended to visit the official website of [Southern Illinois University](#) or contact the [Fermentation Science Institute](#)^[1] or the admissions office directly for detailed information on prerequisites and required courses for the [Fermentation](#) Science and Technology program at [SIU](#).

How can I find the official website of Southern Illinois University?

What is the contact information for the Fermentation Science Institute at SIU?

How can I get in touch with the admissions office at SIU?

Is there an email address I can use to reach out for more information about the program's admission requirements?

query_intent: knowledge

Is there an email address I can use to reach out for more information about the program's admission requirements? 

I apologize, but the provided text from Southern Illinois University Carbondale (SIU) does not include an email address specifically for reaching out about the Fermentation Science and Technology program's admission requirements. The text primarily focuses on the mission and activities of the Fermentation Science Institute (FSI), rather than providing contact information for admissions inquiries.

To obtain specific information about the admission requirements for the Fermentation Science and Technology program at SIU, it is recommended to visit the official website of SIU Carbondale or the Fermentation Science Institute's website. These sources should provide contact information, such as phone numbers or email addresses, that can be used to reach out for more information about the program's admission requirements. Please note that as an AI language model, I don't have real-time access to specific contact information or the ability to browse external websites. Therefore, it's always best to refer to the official sources for the most accurate and up-to-date information.
